VF Microdot Status

Product Information

VIN Identification

Know exactly what you're dealing with

Identify the correct variant according to the VIN.

VF Microdot Status confirms the vehicle details that were captured during production at the OEM; providing the Dealer with the correct brand information.

Process

1. Input the Vehicle Identification Number (VIN).
2. VF Microdot Status is created and available for download.

| Year Model | | |

MICRODOT STATUS

| Microdot Company <small>(Only if VIN is available and vehicle is fitted with microdot)</small> | Status | Date |
|---|--------|------|
| DataDot | Fitted | |

All new vehicles sold in South Africa must have microdot protection since 2012. Microdots give a vehicle an unique identity that is virtually impossible to alter.

CERTIFICATES

A VF Certificate is necessary for compliance with the 2nd Hand Goods Act – Available with VehicleFacts.
 A Microdot Confirmation Certificate is necessary for a Police Clearance – Available on appointment with an Accredited Filment Centre.
