# VF Report

Product Information

## Market Retail Valuation

### Make the most from every deal

Identify the correct variant according to the VIN and gain insight into prevailing vehicle market conditions at the time of sale / purchase.

VF Report provides the retail insight according to the make & variant selected and confirms the vehicle details that were captured during production at the OEM providing the Dealer with the correct brand information.

## Process

1. Input the Vehicle information.
2. The VF Report is created and available for download.
